

Garry OAKS!

We need summer volunteers! Could you help us water our little oaks in the Lehmann Grove?

The young oaks

have survived the winter but will need water during the summer. Pick one oak and keep it watered during dry weeks. Label it as your responsibility. Use two covered ice cream pails and pour water over your tree's roots twice a week during dry weather. Also, remove any weeds in the wood chip area under the tree. Thank you!

The garry oaks are in the meadow area near the entry to the Inaugural Forest. (Park at the Surrey Nature Centre –enter off 96th, near Fraser Hwy).

SNAP Workers are at Work!

SNAP is our major annual project when university students maintain our trails and forest, removing garbage and invasive species like blackberries and ivy, planting boulevard trees and educating neighbours about watering techniques. We also have Day Camps, teaching children to appreciate nature with many motivating activities. And we have eco-rangers who educate the public about rules of the forest, and identification of species. So if you see young people working in the Green Timbers Forest, give them encouraging words, and ask them about their important task of the day.

GTHS Volunteer Day – June 20.

9AM. Everybody gets a GTHS T-Shirt! Meet the SNAP Team at the Parking Lot off 100th Avenue. We'll help them with their work, removing invasive species, litter, protecting

young trees, whatever is on the list for the SNAP workers that day. Wear rough clothes, gloves and boots! **On June 20, meet the SNAP team and the SNAP Project Coordinator, Stephen McGlenn.**

Jim Foulkes, **GTHS** Treasurer, on left, meets Stephen along with Nadia Chan, representing our major SNAP financial partner, **Surrey Parks**. Our other SNAP funder is **Canada Summer Jobs**.

Watch for Stephen's monthly reports. You will be impressed with the important work that SNAP will complete this summer.

Sunday, June 3. At Blackie Spit. **OCEAN DAY** (near Crescent Beach) **Booth and Display Helpers needed!**

Helpers get a free GTHS T-Shirt.

Members, please help with set up at 10 AM. And to man the booth between 11 and 3 PM.

Bring activity ideas for our booth, and each time we'll have something new.

See you on Ocean Day!
